

VANTAGE MEDICARE
A D V A N T A G E

Great News for Vantage Medicare Advantage Members!

This is for Medicare Advantage members only.

VHP will pay out-of-network providers as in-network if you have an authorization to see them.

An authorization to see an out-of-network primary care doctor will last a year. You do not have to call each time you see them. Hopefully, your provider will be in-plan next year, but if not, you can continue to get authorizations a year at a time. An authorization to see an out-of-network specialist can be for individual visits or up to a year depending on the situation.

Procedures that require a separate authorization will still require a separate authorization.

P. Gary Jones, MD
